## BOTTOMS FITS

All fits speak to where the item sits on the body in relationship to the natural waist and how form-fitting/how much ease there is over body through the hips and thigh. The fit should be consistent from the thigh up within each pant fit and the leg silhouette will vary within a fit.

### Slim Fit (Modern)

Contoured waistband prevents gapping in back; low rise sits below the waist; fitted through the hips and thigh (leg silhouette will vary: Straight Leg, Boot Cut, Slim Straight Leg)

### Original Fit

Contoured waistband prevents gapping in back; mid rise sits just below the waist; slightly fitted through the hips and thigh (leg silhouette will vary: Straight Leg, Boot Cut, Slim Straight Leg)

### Relaxed Fit

Contoured waistband prevents gapping in back; mid rise sits just below the waist; relaxed through hips and thigh (leg silhouette will vary: Straight Leg, Boot Cut, Slim Straight Leg)

## How to Measure

For best results measure over your undergarments. Use a cloth measuring tape.

### Bust:

Measure the fullest part of your bust, keeping the tape level to the floor.

### Natural Waist:

Bend side to side and find the natural bend in your body; this is your natural waist. **Note:** It may not be the smallest point.

### Hips:

Measure at the fullest part of your hips, approximately 8" below the natural waist.

### Inseam:

Measure from your crotch to the desired length on body. You may also measure pants that you currently own and like. Lay the garment flat and smooth out. Measure on the front from the crotch point along seam to the hem for the inseam length.
